

Working for a safer tomorrow

# KL Certification Services

(A Division of Karandikar Laboratories Pvt. Ltd.)

ExCB & ExTL

## KLCS - IECEx Certification Body

KL Certification Services, a division of Karandikar Laboratories Pvt. Ltd., has been accredited as **India's first IECEx Certification Body (ExCB)** for the IECEx Certified Equipment Scheme.

Since 2015, when Karandikar Laboratories Pvt. Ltd. became India's first **IECEx Testing Laboratory (ExTL)**, under the guidance of Baseefa, UK, we have consolidated our expertise and have grown to now become an IECEx ExCB.

In line with our motto "**Working for a safer tomorrow**" we hope to extend the advantages and convenience of having a local IECEx ExCB to all Local and International manufacturers, in order to **conduct the testing and certification activities in timely and cost effective manner.**

## Advantages of a local IECEx ExCB & ExTL

*The objective of the IECEx Certified Equipment Scheme is to facilitate international trade in equipment and services for use in explosive atmospheres, while maintaining the required level of safety.*

- **Reduced testing and certification costs** to manufacturer
- **Reduced time** to market
- **International confidence** in the product assessment process
- **One international database** listing

## Process of obtaining IECEx certificate

On successful application, KLCS will review the design documentation and request the sample configurations for assessment and testing.

On successful completion of assessment & testing to the relevant standards an IECEx Test Report (ExTR) will be compile and issued.

KLCS will conduct an audit of the manufacturer's process and issue a Quality Assurance Report (QAR).

KLCS will issue the IECEx Certificate of Conformity (CoC)

- So also, ExTRs can be used to support certification for any IECEx member body for issuing a IECEx Certificate of Conformity (CoC)

**“KLCS  
is now an  
IECEx ExCB  
& ExTL”**
