- any copyright, patent or other intellectual property right of any person or other body and that you are in full possession of all necessary intellectual property rights on the product, system or service to be assessed (including its components).
- 14.8.16.7. You will use a certification mark or other mark that relates to a particular service only in conjunction with that service and in the way provided for in the rules of that service. In particular, in respect of marketing and publicity, you will not represent or pass off any such mark as your property. You will immediately discontinue any use of such a mark which is unacceptable to us and any form of statement with reference to the authority by which you use the mark which, in our opinion, is misleading. Specifically in respect of the IECEX Mark, you accept that any offering, sampling or trading of products bearing the IECEX Mark prior to granting the IECEX Mark License is regarded as deliberate misuse of the IECEX Mark and that you will respect all the general terms and conditions of the IECEX Mark system provided in IECEX Operational Document OD 023, accessible at www.iecex.com.
- 14.8.17 In the event any unforeseen problems or expenses arise in the course of carrying out the services we shall endeavour to inform you and shall be entitled to charge additional fees to cover extra time and cost necessarily incurred to complete the services.
- 14.8.18 When services relate to the IECEX scheme, the relevant IECEX Scheme Rules apply. See www.iecex.com.
- Where we are carrying out testing services for you, the following terms also apply:
- 14.8.19 Unless we receive prior written instructions to the contrary from you, no other party is entitled to give instructions, particularly on the scope of the services or the delivery of reports or certificates resulting therefrom (the "Reports of Findings"). You hereby irrevocably authorise us to deliver Reports of Findings to a third party where so instructed by you or, at our discretion, where it implicitly follows from circumstances, trade custom, usage or practice.
- 14.8.20 We will provide services using reasonable care and skill and in accordance with your specific instructions as confirmed by you or, in the absence of such instructions, methods as we shall consider appropriate on technical, operational and/or financial grounds.
- 14.8.21 Information stated in Reports of Findings is derived from the results of inspection or testing procedures carried out in accordance with your instructions, and/or our assessment of such results on the basis of any technical standards, trade custom or practice, or other circumstances which should in our professional opinion be taken into account.
- 14.8.22 Reports of Findings issued further to the testing of samples contain our opinion on those samples only and do not express any opinion upon the lot from which the samples were drawn.
- 14.8.23 Reports of Findings issued by us will reflect the facts as recorded by us at the time of our intervention only and within the limits of the instructions received or, in the absence of such instructions, within the limits of the alternative parameters applied as provided for in clause 21. We are under no obligation to refer to, or report upon, any facts or circumstances which are outside the specific instructions received or alternative parameters applied.
- 14.8.24 Sample equipment for testing should only be sent to us when requested, and in accordance with our specific delivery instructions. We may request you to supply samples modified to facilitate particular tests.
- 14.8.25 We will not accept liability for loss or damage of samples during transit or storage. Some tests are potentially destructive. If destruction of a particular sample is an issue with you, please discuss with our staff.
- 14.8.26 At the completion of the project we will normally either return the samples to you or arrange for their destruction and disposal as requested at the time of application. You will be liable for any costs incurred in return or disposal. We reserve the right to retain individual samples but will normally only do so with your agreement.
- 14.8.27 You will:
- 14.8.27.1 supply, if required, any special equipment and personnel necessary for the performance of the services; and
 - 14.8.27.2 inform us in advance of any known hazards or dangers, actual or potential, associated with any order or samples or testing.
- 14.8.28 We are neither an insurer nor a guarantor and disclaim all liability in such capacity. Customers seeking a guarantee against loss or damage should obtain appropriate insurance.
- 14.8.29 Reports of Findings are issued on the basis of information, documents and/or samples provided by you, or on your behalf, and solely for your benefit. You are responsible for acting as you see fit on the basis of such Reports of Findings. We, nor any of our officers, employees, agents or subcontractors, shall not be liable to you nor any third party for any actions taken or not taken on the basis of such Reports of Findings nor for any incorrect results arising from unclear, erroneous, incomplete, misleading or false information provided to us.
